

TD Canada Trust offers these guidelines to get young Canadians on the road to retiring a millionaire - starting with \$100 per month at the age of 25 and increasing the monthly amount as they age and earn more income:

Age	Savings per month
25 - 30	\$100
30 - 35	\$250
35 - 40	\$500
40 - 50	\$750
50 - 65	\$1,000

This chart assumes contributions are directed into an RRSP account, benefitting from the tax deferred growth and earning a 6.8% rate of return per year, compounded monthly.
